Maximize Your Shot-Tracking!

Florida SHOTS is growing and expanding in reach, services, and capabilities. Over the past year, Florida SHOTS has introduced a blog, H1N1 vaccination ordering, and much more.

As the year begins, we would like to share all the ways we are committed to helping you maximize Florida SHOTS' shot-tracking tools. Whether you need in-depth training or some quick tips, we've got a variety of helpful resources to assist you, including 24/7 web-based training and user guides and an online blog and forum for Florida SHOTS users. **As always, all tools, web-based training, and help desk support are free.**

Web-Based Training: Florida SHOTS web-based training is always available by [logging into your account](#) and selecting it from the Customer Service menu. Our training modules give you step-by-step instructions and screen shots on everything from data entry to reminder recall to assessing immunization levels in your practice.

Features like the Florida SHOTS Blog and Quick Tips guide provide fast answers to user questions.

User Guide: Everything you ever want to know about Florida SHOTS can be found in the Florida SHOTS User Guide. Available online, think of this as the encyclopedia of Florida SHOTS. The User Guide can be accessed through the Customer Service menu once you have [logged](#)

Feature Interview

It's always nice to know what others who are enrolled in Florida SHOTS have to say about the program. So each issue we'll share with you what some of our top users think about the registry. This feature interview was conducted with Yolanda Pizarro, Pediatric Professional Associates, in Miami.

What do you think is the best feature of the registry for your office?

The easy access to 680s—we use that feature constantly.

What do you think is the best feature of the registry for your patients?

Accessibility to immunization records. We can get immunization records quickly and easily for our patients without searching through our records.

FROM LEFT TO RIGHT: Crystal Lorenzo, Belkis Guardiola, Alina Moraga, Rosa Villarreal Natalie Miller and Nicole Lara

If another doctor's office were to call and ask you whether they should enroll in the registry, what would you say?

It is so easy and user-friendly. We love it! After each patient visit we update their shot records, and it is accessible and up-to-date all the time.

For more information about how you can participate, please call the Florida SHOTS enrollment desk at (877) 888-SHOT

into your account. Whenever the Florida SHOTS system is updated or the functionality expanded, the User Guide is updated to cover the changes.

Quick Tips Guide: Available in English and Spanish, the Florida SHOTS Quick Tips guide is a handy reference for how to's. Topics include logging in, forgotten password, the main menu, entering vaccinations in the registry, 680s, and adding and deleting personnel. This guide is always available as a pdf at www.flshots.com on the [training page](#).

Blog: The Florida SHOTS blog is an up-to date resource for useful information about the registry. Topics cover current news about benefits, blue cards, data upload, inactive accounts, updates, and training. Visit www.flshotsusers.com/blog/ to read more.

Forum: Get advice from other Florida SHOTS users on the Florida SHOTS forum. Chat about summary reports, electronically certifying 680s,

As always, all tools, web-based training, and help desk support are free.

incorporating Florida SHOTS into your daily routine and anything else on your mind. Register (for free, of course) at www.flshotsusers.com/forum and start talking today.

Live Help Desk: Call (877) 888-SHOT Monday through Friday from 8:00 a.m. – 5:00 p.m. Eastern for help with any Florida SHOTS questions or concerns.

Top 10 Spotlight Top Daily Users

We'd like to commend the following practices for hitting our "Top 10 by Daily Usage" chart as of January 22, 2010. **Thank you for your support of the registry!**

Traditional Partners:

1. A Plus Home Health Care, Inc.—Lantana
2. Pediatric Associates of Sarasota
3. Pediatric Professional Associates—Miami
4. Lakeside Pediatrics—Lakeland
5. Family Health Centers of SWF—Ft. Myers

Upload Partners:

1. Walgreens—Statewide
2. Mollen Immunization Clinics II—Statewide
3. Minute Clinic—Statewide
4. Pediatric Associates—Lauderdale Lakes
5. Vaxcare—Orlando

GIVE SHOTS. CAPTURE SHOTS.

Less than half of the teen population get their Meningococcal vaccines and even fewer adolescents complete their HPV series. Vaccinate all your teen patients and safeguard their records in Florida SHOTS. From birth through adulthood, Florida SHOTS stores comprehensive immunization histories.

Did You Know?

Our popular **Quick Tips guide is now available in Spanish**. Both Spanish and English versions can be downloaded at www.flshots.com/training. The Quick Tips guide provides fast explanations to our most commonly asked questions about using the registry.

Tech Tips

I am thinking of enrolling in Florida SHOTS but I don't know if I have time to enter stacks of records for our existing patients. Is there a more efficient way to enter historical records?

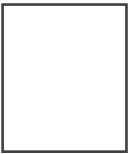

The quickest way is through [data upload](#), which allows you to export historical records from your current software and upload them to the registry in bulk. But if your office can't do data upload at this time, don't worry! Keep in mind that many health-care providers use Florida SHOTS, and your patients' existing records may already be in the system and ready to be updated with additional vaccinations given by your practice.

Some offices actively focus on an age group for data entry, say 0-2 years of age, since these children most frequently receive shots and updated DH 680 forms. You may also wish to pull charts for children who have appointments the next day and enter or update their vaccination records in Florida SHOTS so that you will be ready when the patient arrives.

The quickest, easiest way to input previously given vaccinations is on the historical shot entry screen. Then flag charts that have been entered with a Florida SHOTS "I'm registered" sticker so that you know the record is already in Florida SHOTS and you only need to update the record with the vaccinations given that day.

Welcome Aboard! Data Upload Participant

FROM LEFT TO RIGHT: Jerry, Sarah, Jim, Gwenda, Robbie, Tammy, Casey, Katie, Joey, Cole

We here at Florida SHOTS would like to wish a warm welcome to all of the new practices that have recently enrolled.

In this issue we are highlighting another long-term member of Florida SHOTS who is a new Medenet data upload participant.

Cole Schrimsher, Operations Director at VaxCare Corporation in Orlando recently shared with us about his experience with data upload.

“We first heard about Florida SHOTS data upload through our involvement with immunization coalitions and school and health department immunization programs. We were excited by the idea because we believe immunizations play a vital role in health and wellness. Florida SHOTS is an outstanding resource that facilitates and encourages a greater level of participation in immunizing against infectious disease.

Florida SHOTS not only improves our patient care, but represents best practices in immunization. It benefits health-care providers by improving accuracy and timeliness of immunization records.”

MEDENET SOFTWARE USERS:

If your office uses Medenet software, you can implement data upload. Here's how:

1. Contact either Charles Gaudreau (727-823-2188, cgaudreau1@medenet.net) or Ericka Merrill (727-823-2188, erim@medenet.net) at Medenet to order the Florida SHOTS immunization interface.
2. Contact Holly Graff, Florida SHOTS Implementation Specialist at 904-755-5167, or Holly_Graff@doh.state.fl.us in order to complete the forms to receive a secure ftp site from Florida SHOTS.

Immunization data will be uploaded automatically to Florida SHOTS on a daily basis.

Upload Update

50M

Can you believe it?
We've now topped **50 million shot records** that have been processed by the registry via data upload, a process that exports immunization information from current electronic files and transfers it for import into the Florida SHOTS registry.

Interested in learning more about how your practice management or EMR software could be set up to upload shot data to the registry? Check out page 4 of the newsletter to see which software companies are currently participating, or call (877) 888-SHOT for more information.

YES, please contact me to schedule a visit with a regional coordinator to enroll in Florida SHOTS.
